Attempt 3 **OR** 4 Reds

In the opening, all obstacles are bidirectional and combinations can be performed in any manner, but do each element only once (repeating an element will end the run). For #7, in the opening perform only 3 of 4 jumps (your choice, but if a jump is faulted in an attempt, you must pick a different jump for future attempts in order to earn the points). In the closing, perform as numbered including all four #7 jumps (a-d). The finish jump is live at all times.
